KAZAGROPROM BLACK STURGEON CAVIAR

KazTrade (KazAgroProm FZE) sources premium-quality black caviar via their partner **OstFish LLP**, which specializes in raising sturgeon in artesian waters and harvesting caviar using humane, “lifetime” methods without harming the female fish.

This ensures a natural, flavorful product free from antibiotics, and each batch undergoes strict veterinary and sanitary checks to guarantee safety and quality.

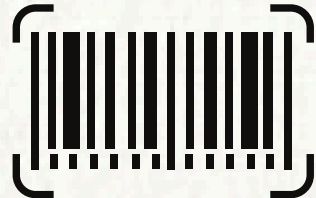

Key highlights include:

- **Sturgeon varieties:** Russian sturgeon, Siberian sturgeon, and bester (a beluga–sterlet hybrid)
- **Sustainable & organic methods:** No antibiotics or hormones, with continuous indoor production ensuring availability year-round
- **Regulatory compliance:** Certified by ISO standards and HACCP, transported in temperature-controlled packaging (-2 °C to -4 °C), and produced lawfully under CITES to protect wild sturgeon populations
