Altyn Orda LLP

ABOUT COMPANY

The company was founded in 1997 in Kyzylorda . The company employs 118 highly qualified specialists. Until 2016, the Altyn Orda was engaged exclusively in logistics services, and in 2016 it has acquired a line for the production of table salt. Starting from that year the production of table salt was launched under the brands “Assol” and “Safia”.

PRODUCT DESCRIPTION

The focus of the management of Altyn Orda LLP is focused around the health and well-being of consumers.

Iodized salt "Assol". Table salt, edible salt, self-planting.

COMPETITIVE ADVANTAGES

Environmentally friendly product

High production capacity

Strict quality control

ABOUT THE COMPANY

Zyryan Mai LLP is a producer of unrefined cold pressed sunflower oil and sunflower cake in Kazakhstan. The company focuses on eco-friendly raw materials, carefully selects suppliers and regions of purchase, in every possible way reducing additional chemical processing of raw materials. To date, the oil is manufactured and supplied mainly for export under the brand name "Zyryanovskoye".

Production capacity: 1000 tons of sunflower oil per month.

PRODUCT DESCRIPTION

Natural and eco-friendly production of sunflower oil. Due to the gentle technology (cold pressing method, which excludes preheating of raw materials), the product retains useful substances, vitamins A, E, D and group B. Thus, the oil is suitable not only for cooking all kinds of dishes, but also is a source of vitamins.

Shelf life: 12 months.

COMPETITIVE ADVANTAGES

The company's products comply with the quality standards of the Eurasian Economic Union (EAEU declaration of conformity)

100% natural product, does not contain conservatives and GMOs.

Bastay-Astana LLP

ABOUT THE COMPANY

Bastay'-Astana LLP is engaged in the processing of oilseeds and the production of sunflower-seed oil. The production site is located within the city of Ust-Kamenogorsk, East Kazakhstan.

PRODUCT DESCRIPTION

The company produces sunflower oil in two types of packages:

- **Bottle of 1 liter**
- **Bottle of 5 liters**

Production capacity: 10,000 kg of sunflower seeds per day, oil yield – 38% (3,800 kg) and cake – 58% (5,800 kg)

Own base with production workshops and warehouses for raw materials. There is a store for the sale of products on the territory of the base.

There is a line for sunflower-seed oil bottling and packing in bottles with a capacity of 1 and 5 liters.

There is a workshop for the production of halva, calibration, roasting and packing of sunflower seeds.

ECOFOOD KZ LLP

ABOUT THE COMPANY

EcoFood KZ LLP produces cold-pressed oils with the preservation of vitamins and minerals. The company was founded at the end of 2017.

PRODUCT DESCRIPTION

Sunflower oil is the most common and consumed type of vegetable oil in the world. Due to its balanced composition and pleasant taste, sunflower oil is universally used in cooking, for dressing salads, frying meat or vegetables. Unrefined oil undergoes minimal processing, therefore it retains the maximum amount of useful substances in the composition (vitamin E, useful minerals, omega 6 and omega 9 fatty acids). The product has a brighter, richer taste and aroma.

Product Features:

- **Natural eco-friendly**
- **High quality**
- **Affordable prices**
- **EAEU declaration of conformity**

Purchase Scheme:

- **Making an order by phone**
- **Providing a sample**
- **Full prepayment of the order**
- **Delivery or pickup**

COMPETITIVE ADVANTAGES

The company's products comply with the quality standards of the Eurasian Economic Union (EAEU declaration of conformity)
